

## The Healthy Life Cook Book (for Vegetarians)

Excerpt from the Preface: This little book has been compiled by special and repeated request. Otherwise, I should have hesitated to add to the already existing number of vegetarian cookery books. It is not addressed to the professional cook, but to those who find themselves, as I did, confronted with the necessity of manufacturing economical vegetarian dishes without any previous experience of cooking. An experienced cook will doubtless find many of the detailed instructions superfluous.
