

## Across The Lake

Across The Lake is the first post-apocalyptic book of a two book series by Doug Kelly. In less than a day, an apocalyptic asteroid impact brought civilization to its knees and drastically altered the geography of North America. After the impact, cataclysmic events killed most of the worlds population, and for years beyond this tragic aftermath of human suffering, people continued to die in droves. Those who survived struggled against formidable obstacles such as hunger, disease, and the murderous conflicts that accompanied scarce vital resources, but the will to live was strong. Humans crawled from under the rubble of toppled civilizations and began the long, multi-generational trek back to organized society. Over time, Earth began to heal, survivors banded together, and communities arose. This is a story of survival, warfare, and revenge that took place in what remained of Louisiana. What adventures are, Across The Lake? The story concludes in this dystopian novels sequel, The Long Journey Home.
