

## The Legacy of Lehr

Best known for her beloved Deryni series, Katherine Kurtz rockets into new territory in this breathtaking science fiction murder mystery. The interstellar cruiser Valkyrie has been ordered to take an unexpected detour from its normal route to pick up a strange and valuable cargo. Capt. George Lutobo cannot disobey the commands of his emperor, but the idea of bringing four huge, blue-furred lionlike creatures onboard a luxury vessel makes the captain uneasy. Nor does he trust the big cats escorts, husband and wife scientists Mather Seton and Wallis Hamilton. Though these magnificent felines possess remarkable psychic abilities and are worshipped as deities on their home planet, for that reason, are essential components of the diplomatic negotiations between worlds they are nevertheless frighteningly dangerous beasts, powerfully built, with razor-sharp claws and teeth. Soon after the creatures arrival, the discovery of a dead passenger, ripped to pieces and clutching a clump of blue fur, seems to justify Captain Lutobo's fears. The killings continue, each as savage as the last, though Seton and Hamilton insist that the great felines could never have escaped from their cages. But the dark mystery only deepens when one of the imprisoned cats is murdered the manner of its death impossible to fathom and one terrible truth becomes frighteningly clear: No one and no thing is safe any longer aboard the Valkyrie. Thrilling, surprising, and marvelously inventive, Katherine Kurtz's *The Legacy of Lehr* is an exciting science fiction adventure that displays a daringly different side of the acclaimed fantasist best known for her popular Deryni and Knights Templar fantasy series.
