

## Cities of Mystery (AD&D Roleplaying, Forgotten Realms Accessory, Fr8)

Inside this folder are 12 different street layout patterns that can be combined in a multitude of ways, plus 33 buildings of various shapes and sizes that can be cut out and assembled. The components, scaled for use with 25mm miniature figures, allow you to create three-dimensional city scenes for characters to explore. Also included is a 64-page book that takes you step by step through the process of defining and designing the villages, towns, and cities of your campaign world. The book contains five adventure scenarios that make use of the street layouts and fold-up buildings - ideas designed to get you started on the way to making your cities come alive.
