

## Flowerpot Farming: Creating your own Urban Kitchen Garden

Join the Flowerpot farming revolution! You don't need acres of land or even a big garden to enjoy your very own home-grown, fresh garden produce. The balcony, backyard, patio or even the doorstep can all be turned over to vegetable production. Flowerpot Farming shows you how to create an orchard on the patio, grow new season potatoes out of bags and offers a continuous source of seasonal vegetables throughout the year. This resourceful and informative reference book details all you will need to know to turn your slabs of concrete into your very own grocery store. With plenty of advice on soil preparation, tools, maintenance, the best seeds, the best planting times and plenty more, this book will encourage everyone to get started in flowerpot farming
