Joe Chandler seemed like the average guy. Life seemed perfect. He lived in the peaceful suburban neighborhood of his dreams, with the love of his life right by his side. However, beneath the surface was a man more intriguing and powerful than his wife could ever begin to imagine. When Joe entered his home to see that it had been ransacked, his facade of an average guy came tumbling down. Rather than stealing something of monetary value, his wife was who the intruders had taken. It became evident that his past had made its way into his present. Will Joe be able to free his wife, Lila, from an enemy he never knew he had? Will Joe's actions make him the next candidate for the Presidential Cleaning? There's so much at stake, but with the love of his life in the arms of men who have no mercy, Joe needs to do all he can to get her back. Seeking the assistance of his old friends, he comes up with a plan to get what he wants. Unfortunately, there's no telling when or if something will fall out of place. And if it does, there's a lot more to lose than just one life. Presidential Cleaning is a novel comprised of twists and turns, secrets and revenge. It's a novel that will have your blood pumping, your skin crawling and your heart racing as you follow Joe Chandler on his journey to the unforgivable. From the first line, you'll be able to feel Joe's anger, his pain, and understand his indignation. But will you agree with all the things he's done? Will justice be served or will Joe's actions be written off as an injustice? It is easy to say that

there has to be a line between right and wrong, even in a Hostage Thriller. However, picture yourself in a situation where your loved one has been kidnapped and is being held hostage. How far would you go to get your soul mate back? Would you be willing to cross the lines between right and wrong?
