

Charles Darwins The Life of Erasmus Darwin

In observation of the bicentenary of Erasmus Darwins death, Cambridge is publishing this collection of personal writings by his grandson Charles. This is the first unabridged publication of a book by Charles Darwin, and it contains a series of illuminating insights into his grandfathers life and work. With quotations from letters and candid comments by Charles Darwin about his books; and free of the conventions of scientific writing; this small volume of personal observations illuminates the life of a distinguished scientist as seen by his accomplished successor.
