

The Phobos Maneuver: A Science Fiction Thriller (The Solarian War Saga) (Volume 5)

Cosmic war has torn their lives apart. Will their last-ditch plan prevent annihilation or doom them all? Alicia Petruzzelli doesn't play by the rules, but she knows Star Force needs her in the war against a hostile machine collective. When the fleets discipline rubs her the wrong way, she questions the UN's strategy of overwhelming force. As a riskier plan comes to the fore, Alicia must consider becoming a deserter to save humanity. Jun Yonezawa is an outlaw AI. He knows the UN's plan is flawed and a singlehanded cyber-attack may be the only chance for success. Reluctantly aided by John Mendoza, Jun embarks on a perilous mission into enemy territory. Elfrida Goto has come a long way from asteroid eviction. Her new mission is to unite the PLAN's enemies for one final push against the inhuman horror. If all the other pieces fall into place, Elfrida's allies will have one chance to pull off a deadly maneuver that could turn the war around or destroy them all in the process. The Phobos Maneuver is the fifth book in the Solarian War Saga, a series of novels in the military sci-fi space opera genre.
