

## BattleTech: Blood Price

**BLOOD PRICE (A Short Story)** By veteran BattleTech writer Loren L. Coleman, Blood Price takes place during the battle for Solaris VII. This story follows a new serial character in the BattleTech milieu: a man who became known only as the unnamed soldier on Solaris VII. A veteran infantryman, security agent, and now a merc for hire, this character appears in several stories. Intent on the battle for Solaris, the soldier is grabbed in a daring raid and taken back to the city, where the local yakuza make him an offer he'd better not refuse.
