

Convergent Paradox (Time Travel Through Past Lives Adventure Series) (Volume 2)

In the fifth aeon of the Earth, upon the final epoch of humanity, I live my four lives, converging ever closer, but still ignorant of my mission. I've seen airships and spheres clash high above a cataclysmic sky, smelt aniseed and sulphur, foul betrayers of medieval corruption, heard the songs and screams of ancestral monkeys cry, and tasted the poison of Fair Rosamund's destruction. Return to the story of my four lives lived in parallel; four lives spread across time and space. Lives that unravel between a covert sentient project hidden deep within a planet's core, to a time of intrigue between agents of the Secret Service Bureau, investigating the vagrancy of Her Majesty's first airship. But is this reality or an anaesthetised simulation, designed to lead a young girl to an impending ritual? And for what end? Book 2 in The Time Travel Through Past Lives Adventure Series
