

# The Twilight Garden: A guide to Enjoying Your Garden in the Evening Hours

Some say that the twilight hours are the best time to enjoy a garden; a time when the spirit of the place really comes alive. It is also the time when many people pass front gardens on their return home, have a few spare minutes for garden maintenance, or want to enjoy the garden for entertaining. Full of easy maintenance advice, planting ideas for evening fragrance, colour, lighting, design, and attracting wildlife, this is a book for how people garden now. Front gardens, terraces, larger plots and containers will all be covered in an attempt to inspire everyone to transform their outdoor space into a twilight paradise.
