

Flatland: A Romance of Many Dimensions

Imagine you are living in a two dimensional world when all of a sudden you experience a strange alien that you cannot perceive fully due to some strange dimensional divergence. You attempt to understand this three dimensional creature, but it baffles imagination. This craftily written story helps illustrate exactly how we see dimensions beyond our own, and why we don't perceive them. Includes historical geometric drawings by Wenzel Jamnitzer from *Perspectiva Corporum Regularium* 1568
