A war beyond time. An enemy beyond space. A thriller beyond your wildest dreams. Three areas on the Earths surface defy explanation: the Bermuda Triangle, the Devils Sea of Japan, and a small region of Cambodia. Inside these realms, planes have disappeared, ships have vanished, and, in Cambodia, an entire civilization has been lost leaving behind Angkor Wat. In 1628 BC, a volcano erupts, one that would become legend as the eruption that destroyed Minoan Civilization. But a small group of priestesses stand fast against the dark Shadow that precipitated the destruction. In 79 AD the oracle of Delphi must join forces with the most fearsome gladiator from the arena of Pompeii to fight the Shadow which destroys Vesuvius. And the XV Legion is sent on a quest that causes it to disappear from the Roman Empire and into the fog of history. In 1937, Amelia Earhart is on the most dangerous leg of her round the world flight, near the Devils Sea. A dark Shadow rises in front of her and swallows her and her plane, never to be seen again. Until the present, when Eric Dane leads his team against the Shadow threatening our present world and unites with her. In 1986, the Shadow appears inside of Chernobyl, sucking power from the reactors and causing disaster. And in the present, the Ring of Fire around the planet ignites,

threatening the planet. Former Green Beret Eric Dane and the mysterious Sin Fen, a woman with powers he can't quite understand, must track the mystical crystal skulls that have baffled scientists, to use them as a weapon against the Shadow, and unite with the gladiator and oracle to make a last stand for mankind.
