

Water Gardening for Everyone

Here's the ideal book for helpful and readable coverage of all aspects of Water Gardening. There's construction, water plants and marginal plants. Fish and other livestock are included too. A particularly helpful picture sequence shows just how simple it can be to create a pond using a plastic liner readily obtained from most garden centres. Numerous colourful diagrams give helpful tips and ideas on planting, and a comprehensive glossary helps with plant selection. The inevitable pool problems, (even coping with the heron..., are dealt with in a practical and helpful way, to guide the reader to success with what is potentially a highly rewarding and fascinating part of the garden.
