

Psionic Overload (The Science of Psionics Book 3)

Newly-married and fresh from their honeymoon adventures, Mark and Linda visit Carl in Edmonton to begin research in the new lab. Despite all their efforts at secrecy, their research is compromised by Carl's new intern, who just happens to be Mark's old college girlfriend. Having decided that Linda is unworthy of both Mark and psionic powers, and that the world owes her, she discards both morals and ethics in a quest for revenge that threatens to destroy anyone and anything that gets in her way. When words fail, a race for power ensues that could prove deadly for our heroes who now face an opponent with powers equal to their own.
