

Dark Nest; Reckoning

Captain Temesia Elysse has just steered her ship through almost certain death. With the help of her gifted crew, the Dark Nest has survived. Her newly evolved psychic people are targets of Homeworld genocide. Hundreds have been killed aboard the Light Nest. Back on Homeworld soil, her people are being hunted. Her lover may be dead, the gifted teacher Reyn Wolfe. It will take all Captain Elysse's restraint, with vast new psychic powers available to her and her people, not to let her infamous temper get ahead of her. But there must be a rescue mission for those still alive. And there must be justice. There will be a reckoning. And the Homeworld council has no idea their persecuted victims are alive, or just how powerful they've become.
