

## Redfall: Fight for Survival (American Prepper Series) (Volume 1)

Society will collapse in days... And that's the good news. Former Special Ops and survivalist Simon Redfall has lost everything: his wife, his fortune, and his future. Despite being hunted by angry mobs and his own bankrupt government, Simon arrives in Washington, DC to attend the first ever, pay-per-view execution of someone he loves. Then red storm clouds appear and begin to spread their potentially toxic rain across the planet. The mysterious weather phenomenon grounds all travelers, knocks out communications, and threatens to take down the grid, sending civilization back to the Stone Age. As society tumbles into chaos, Simon joins a group of like-minded preppers to unlock the secrets behind a terrifying global conspiracy. What he and his band of freedom fighters soon learn will put their lives at risk, and the lives of everyone else on the planet. For humanity, time is running out ... When the red rain stops falling, it will be too late to stop what's coming next. Book 1 in the American Prepper Series \*\*\* Rated R for Violence, Language, Sexual Situations, and Bloodshed \*\*\* What the Critics are Saying: Full of intrigue and twists, REDFALL: FIGHT FOR SURVIVAL is an enthralling, fast-paced take on the apocalypse story. REDFALL: FIGHT FOR SURVIVAL is a novel that hits the ground running and doesn't let up. Falconer piles on the action-packed conflict, delivering one twist after another, dropping obstacles onto characters who are left wondering if they'll ever dig their way out. Multiple storylines fill this creative yet miserable dystopian America, from the quirky preppers of the compound Pandora to militant groups, top-tier government officials, and slimy businessmen. Falconer's precise timing between transitions from one subplot to another makes the action flow like a TV drama, unfolding layer by layer while the pieces start to come together. ~ 4.5 Stars by IndieReader

Redfall: Fight for Survival is an awesome action and dystopian tale that is dark, gritty, and scary because it could be so real. Falconer is a master writer who excels at his craft. I loved the characters in this story and the mystery behind the rain. I couldn't put the book down until I knew how it ended. ~JJ Phillips, Readers Favorite Book Reviews. 5 Stars. Redfall: Fight for Survival is a really well-written story that crosses so many genres that it is sure to please everyone! It is so much more than a sci fi story. It has mystery and suspense, action and sorrow. There are corrupt governments, secrets, lies, death, fights, and of course, action! Once this story starts it never stops, which is a great way to read a story like this. Falconer is incredibly talented at writing this world and his characters. I felt like they were real people, struggling with real issues, and I was so immersed in the world that I worried for these characters like they were my own friends. ~Renee Taylor, Readers Favorite Book Reviews. 5 Stars. Im absolutely hooked on the characters and whats going to happen to them next. This isnt your normal dystopian sci-fi read. I give it 5/5! ~Elizabeth Barbarick, Reviewer for Stuffed Shelves. 5 Stars. This is the most unique end-of-the-world story I have ever read. ~ML Banner, #1 Best-Selling author of the Stone Age Series. If youre looking for a TEOTWAWKI story about survival that combines hard science with a sweeping conspiracy, youll love REDFALL. Its a combination of One Second Later and Sum of All Fears, while set against the backdrop of a suffocating weather event affecting the entire world. ~Amazon 2015 Kindle Scout Winning Author, Jay J.
