

## EMP (The Districts Book 1) (Volume 1)

The world is a dangerous place in 2016 and the United States has become more isolated than ever before. Things get unimaginably worse when two nuclear devices are detonated in the atmosphere over the United States. The country is torn to pieces and only the strong can put it back together again. Nick is stuck in traffic on his way to work in Denver. General Sutherland is on his way to Ft. Drum for a routine inspection. Sandra is sitting on her porch and drinking her morning tea. The United States of America is about to change forever.
