

Exodus: Part one of the Exodus Trilogy

When mankind faces extinction, can anyone survive? In 2072, Earth faces the ultimate extinction event. In an America turned authoritarian, a race against time begins. To send a starship to a distant planet, where the remains of humanity can survive. However, while the government wants to recreate the society it has engineered, there are those who secretly conspire to let the starfarers choose their own destiny. As mankind on Earth faces its final blow, the selected few set course for Aurora, more than 40 light years away. Follow Maria Solis, the billionaire daughter, Kenneth Taylor, Harvard professor of psychology, and Tina Hammer, a scramjet pilot and officer, through the selection and preparations for the adventure of a lifetime - and a final chance for a doomed civilization.
