

## Interzone #241 Jul - Aug 2012 (Science Fiction and Fantasy Magazine)

Interzones July-August issue contains Sean McMullens novelette Steamgothic and Aliette de Bodards very moving Ships Brother plus stories by Gareth L. Powell, David Ira Cleary, and the 2011 James White Award winning story by C.J. Paget. This issue also has Nick Lowes verdict on Prometheus Surely the most ineptly written blockbuster of recent years, Prometheus marries stunning spectacle filmmaking to abjectly woeful science, plotting, and dialogue..., but theres much more on that and other reviews. Internal hyperlinks have been added in the reviews sections and we would like to know if these are useful or helpful. Please let us know your thoughts. If readers consider them an improvement then we can continue the practice. Cover art is Ben Baldwins The Hermit. Interior art from Jim Burns, Joe Burns, Richard Wagner and Dave Senecal. Other features are David Langfords Ansible Link (news and obits) and Tony Lees DVD/Blu Ray reviews.
