

## Futureland

The place is the United States. The time, the near-future, 2020-2040. Here, justice is blind and the ranks of the disenfranchised have swollen to a toxic level. High-tech rules the day while human nature, for better or worse, remains constant. In nine interwoven tales, Mosley paints a keen if fictional portrait of what the future could hold if our own political climate continues. A bestselling author in the mystery and literary genres, Walter Mosley has added science fiction to his list of successes. *Blue Light* (Little, Brown and Company, 1998) netted over 30,000 copies in hardcover and was a #1 Los Angeles Times bestseller, a San Francisco Chronicle bestseller, and a New York Times Notable Book for 1998. Additionally, *Blue Light* won widespread acclaim in national publications and was a Selection of Book-of-the-Month Club. iPublish.com offered two short stories from *Futureland* as original eBooks in 12/00. *Walkin the Dog* (Little, Brown and Company, 10/99), the authors previous short-story collection, grossed nearly 68,000 hardcover copies. Mosley is the author of the New York Times bestselling *Easy Rawlins* novels.
