A cosmic accident sets the modern West Virginia town of Grantville down in war-torn seventeenth-century Europe. It will take all the gumption of the resourceful, freedom-loving up-timers to find a way to flourish in mad and bloody end-of-medieval times. Are they up for it? You bet they are. Edited by Eric Flint, and inspired by his now-legendary 1632, this is the fun stuff that fills in the pieces of the Ring of Fire political, social and cultural puzzle as supporting characters we meet in the novels get their own lives, loves and life-changing stories. The future and democracy have arrived with a bang and the forces of freedom have a chance to take the evil out of medieval three centuries ahead of schedule. About Eric Flint's Ring of Fire series: [Eric] Flint's 1632 universe seems to be inspiring a whole new crop of gifted alternate historians. Booklist [Eric Flint] can entertain and edify in equal, and major, measure. Publishers Weekly
