

Broken World

These stories have been previously published. One story is a novella and one is a full length book. All your questions wont be answered in book 1. We need to fight for the future we want, not the one thats been delivered to us. Taking back our world is a fight well never give up on. When fate and destiny collide, one must fight the darkness or be swallowed up. In this anthology, each hero or heroine has a dark fate... a marked destiny. Will these inspirational characters survive the cards of fate they have been dealt? Story 1 APOCALYPSE UNDERWATER CITY by Chrissy Peebles ***This is a 15,000 word novella*** This series does have dark moments and is intended for mature audiences only. BOOK TRAILER: <https://www.youtube.com/watch?v=CF9UKY0qiSo> Im a survivor, living in a post-apocalyptic world. I live deep in the ocean and thats how we all survived the worlds greatest catastrophe known to man. Id often dreamt of a normal life, but sadly, that wasnt what fate had in store for me. Where do I even begin? Lets start from the beginning, shall we? My name is Sky Hammons, and this is my story. Its actually quite like my name, because it is a tale of hope, faith, and new beginningslike a bright, blue summer sky. Or at least that was what Id wished for, back when I was naive and clueless enough to believe it. I really wish my journey could be summed up like that, and at first, it seemed like that might be the case. But then that bright sky darkened, and things fell apart. As if Chicken Littles fears were coming true, my blue sky shattered. They say The truth will set you free, but I cant say I believe thatat least not anymore. In my case, the bitter truth shook me to my very core. I never would have imagined that life could be so cruel or that people could be so deranged outside of an Alfred Hitchcock script or some awful horror movie, but I learned one thing: Never, ever believe what youre told.

Id been hand-fed lies since birth from my so-called government, and like a mindless drone, Id happily believed every fraudulent word of the garbage they spewed. Maybe I just wanted that warm, fuzzy feeling; their lies comforted me and allowed me to sleep better at night. After all, who doesnt want peace and hope and goodwill and all those other things splattered in snowy glitter all over the front of Christmas cards? When I got a little older and started to take a good, close look at the world around me, I began to challenge the world I lived in. I began to realize it wasnt all marshmallows and unicorns and Norman Rockwell paintings, and I started to ask questions. Id always hoped for a bright future, but little did I know that absolute terror was lurking just around the corner. As I dug into the unknown, I was confronted by my worst nightmare. My name is Sky, and this is my story.
