

Herbal Antibiotics and Antiviral Cures: Use Organic Herbal Antivirals and Antibiotics to Cure and Protect Yourself

An antibiotic is a type of drug that is used to cure infections in different parts of our body. Usually, these infections are caused by small microorganisms such as bacteria and viruses. The antibiotics that are sold in pharmacies today are synthetically produced in the form of capsules, tablets and liquid; but most of these modern antibiotic medicines were originally derived from plants that have the same chemical properties and they are called herbal antibiotics. Herbal antibiotics are effective in treating body infections and in quickly healing wounds. These antiviral cures are also effective in treating many kinds of illness such as cold, fever, flu, arthritis and many more. In these audiobook, we will discuss some of the best types of herbal antibiotics that you can use to treat various kinds of illness. Why should you buy this book?
