

Mouthful of Carrion: An Extreme Horror Zombie Story (Three Days until Midnight Book 1)

MOUTHFUL OF CARRION is an EXTREME horror tale. Please do not purchase this book if you are easily shocked, disgusted or offended. *** Welcome to existence after the Zombie Armageddon*** Two decades have passed since that deadly mutagen turned most of our species into the walking dead. Now, millions of blighted corpses migrate across the land, consuming everything in their path. The few surviving humans live a Nomadic existence, foraging for what little scraps they can find. In this ravaged world, a lone hunter searches for his human sister, vowing revenge on whoever dared to rip her away from him. She had cared and looked after him, ever since the outbreak, nurturing the hunter, helping him come to grips with his affliction. Part human, part zombie, the hunter had relied on her to rein in his base instincts, to stop him from feasting on warm human flesh. In his search, the hunter encounters a human settlement that shouldnt even exist. Within its borders, lies a dark secret that, if revealed, could very likely end the existence of everybody still living.
