

Remote Control

In this dark, suspenseful and somewhat comical look at one mans desires, Remote Control, a novelette by bestselling author Cheryl Kaye Tardif delivers a strong message: Be careful what you wish for! Meet Harold Fielding--plumber by part of the day, slacker/tv addict the rest of the day and night. Harry believes that fame and fortune will come to him if he wishes hard enough. God forbid if he should actually work for it. Beatrice Fielding is Harrys hardworking wife. She holds down multiple jobs so her husband can laze about on his recliner, eating popcorn and drinking cola while watching his favorite shows. She has many wishes--some arent so nice. ***2008 Textnovel contest finalist***
