

Jason Earth

Intelligent life on other planets exists, but no one on Earth knows it...yet. A handful of Earthlings are about to get a serious dose of reality. Most teenage boys are obsessed with sports, video games, and of course; the opposite sex, but not Jason. Jason can't rid the thought from his mind that his survival from a car accident has more to do with fortune alone. Then one fateful evening, his suspicion is proven correct. Jason stumbles across a glowing orb and the reason for his survival of the incident becomes unmistakably clear. Tragic events unfold, linking the images the sphere has engraved in his head with the unexplained and disturbing turmoil that has begun to unfold on Earth. Joined by three others along the way, Jason and his friends grow as human beings while learning the merits of friendship, love, and humanity. Follow Jason's crew through space as they race against time to save the human race from the evil Mamines, an alien race that plots to take Earth as their own. During their adventure they are confronted with multiple, seemingly, insurmountable tasks. The possibility of survival seems bleak, and so does any hope for the human race. Will Jason and his friends prevail, or is the human race destined for extinction?
