

30 Minute Expert Wine and Wine Tasting Guide (The Home Distillers Series)

This eBook is now FREE* with purchase of the paperback version, via Amazons MatchBook service. Who has not, at some point, just stared in confusion at the seemingly endless rows of wines at your local store? Or worse yet, have you ever been out to dinner with friends and been put on the spot by the sommelier? Or how about a weekend trip with you friends to wine country when you suddenly realize that you are not even sure what to look for in a good wine or for that matter a winery??? It was on just such a trip when the inspiration for this book hit me. It takes about an hour to drive to the local wineries. Why isnt there a comprehensive yet concise guide that can introduce people to the world of wine even in that amount of time? When I couldnt find a book like that I decided then and there to write it! This book is a compilation of knowledge gathered from my time doing research in Napa and Sonoma counties, the heart of Americas Wine country. This book will teach you in under an hour, which just so happens to be the driving time from SFO to wine country, everything you need to know to hit the ground running and to start enjoying wine and the experience of wine tasting! *Note that all books published by FOI Publishing are DRM FREE as well as MATCHBOOK ENABLED. What is MatchBook? MB is a program in Amazon where, if the publisher enables it (And we have!), you get the kindle version for a discounted price. How discounted? Well at FOIPub we think FREE is the right answer to that question. Our view is that you have purchased a License for the book. You paid for it right? Then who are we to say when and how you want to enjoy your media. Paperback or eBook, we dont care, read it however you want. That is why all FOIPub eBooks are now 100% when you buy the paperback! It is also why there is no DRM (Digital Rights Management). DRM is used to stop people from copying

media from one device to another. Mainly to stop media pirates from stealing an authors work. Our take at FOIPub is that we dont just assume that our readers are thieves like some publisher do! And lets face it, honest folk will pay for good content and thieves never were going to pay for it in the first place. Its why we call them thieves right? So if you are a customer please know that we honor and respect your choice to pay for our content. If you are a thief, what can I say, hope you like your Karma!
