

Atlanteans Quest 2: Exodus

Jaclyn Ward was prepared for anything a jungle could throw at her. Anything but an encounter with a dark-haired, jade-eyed Adonis named Ares. Nothing on the planet could have prepared her for him. Ares knows Jac is the only woman strong enough to stand by his side. It will take all his skill as a hunter to catch her as two strong wills collide. In a game of domination there can be only one winner.

anything a sweltering jungle could throw at
her. Snakes, spiders, mosquitos--no
problem. She cut a swath through them all
to find her missing friend. The last thing
she expected to encounter was a
dark-haired, green-eyed Adonis named
Ares, whose passions and skills as a hunter
matched her own. Ares knows Jac is the
only woman strong enough to stand by his
side, but convincing her will take all of his
skills. He's determined to claim her, but
Ares will soon learn that it isn't smart to
mess with the daughter of a SEAL. Jac will
do whatever it takes to complete her
mission--even if that means sleeping with
the enemy. She can't match Ares' strength,
but years as a corporate attorney have made
her ruthless. Ares wouldn't be the first man
to underestimate her. When he did, she'd be
ready. In a game of domination, there can
only be one winner. (Atlanteans Quest 1:
