

Men Writing Science Fiction As Women

First came Women Writing Science Fiction as Men, which was a homage to the early days of the science fiction genre, when it was a given that the writers and their readers were men and any woman writing science fiction had to hide her true identity. Now, in this all-new collection of nineteen stories by top male writers, the men are getting a chance to see if they can meet the challenge of successfully writing as women. Stories by Barry N. Malzberg, Robert J. Sawyer, Ralph Roberts, Robert Sheckley, Jack Dann, David Gerrold, Frank M. Robinson, Dean Wesley Smith, and others
