

## Kirov Saga: Altered States (Kirov Series Book 9)

About Altered States Kirov is trapped in the midst of WWII once again, only the world is not the same! The consequences of all their interventions in history have now calcified to a new reality. The political borders of nations have been re-drawn, and their homeland is a divided nation with a new Soviet Russia led by Sergie Kirov locked in conflict with the oppressive Orenburg Federation ruled by the iron fist of Ivan Volkov. The ship and crew arrive in the North Atlantic only to find the course of the war at sea has also been radically altered when the Germans adopted their Plan Z naval building program in 1936. Adding powerful new ships like the battleship Hindenburg and carrier Graf Zeppelin to their order of battle, a much more powerful Kriegsmarine rises to challenge the might of the Royal Navy, and the outcome of the war rides in the balance. Discovering they still possess a decisive edge in weapons technology the officers and crew of Kirov must now decide which side to take in the long and terrible war that threatens millions more lives. Don't miss this much anticipated continuation of the Kirov Series in its 9th exciting volume that will also begin a new alternate history series covering the naval war in the West!
