

Ascend (The Copula Chronicles Book 3)

With the breach of our world by those intent on invading it, a veil has been opened, giving way to the evolution we needed to stop. Now, I must ascend this veil that has released boundless evil into our world. This inheritance I possess is the key to a legacy bestowed to me; one that I have not yet discovered. My name is Jesca Sera. My reality has been pierced and it is with absolute certainty that nothing will ever be the same in our world again. ~ Jesca With the guardians attempt to stop the global invasion and apocalyptic evolution of the earth, two of the men in Jescas life have made the ultimate sacrifice in a daring attempt to save her from near death and keep the veil, a celestial barrier meant to separate our universe from all others, from remaining open. The fate of Ezra and Nate is dismal unless Jesca, Xander, and the other guardians can find a way to get them back, while destroying the evil that has seeped into our world, and sealing the ethereal veil between our universe and the evil that lie beyond it. As Jesca ascends beyond the veil, malignant illusions meant to turn allies against one another are at every turn in this parallel universe. One truth among the illusions is bestowed to Jesca; the celestial inheritance from her ancestors along with the prophecies of what is to come of the guardians and earth.
