

Lurulu

Myron Tany continues his picaresque wanderings, begun in *Ports of Call*, as supercargo on the space freighter *Glicca*. Traveling from world to world, in search of *lurulu*, a myth-inspired state of existence best described as fulfillment of hearts desire, Myron encounters unexpected delights and perils among the peculiar civilizations of the Gaeen Reach, and among the pilgrims and mountebanks who take passage on his ship. SF Grandmaster Jack Vance's last novel, *Lurulu* is a lyrical testimonial to a simple truth: most important in a voyage is what happens along the way.
