

Discount Miracles

The crew of the space salvage ship JN3-0518 have crash-landed on a planet that was colonized hundreds of years earlier, and has lapsed into a suspicious and superstitious dark age. With their advanced technical knowledge, the crew makes a living by faking miracles. Kings and clergy hire them to make ancient prophecies come true. But when they are tasked with making a prince ascend into light and power, they find themselves cast as kidnappers and witches. Discount Miracles is a slipstream story of sci-fi and fantasy that lightly treads the edges of Clarke's Third Law. Hoverbikes and giant monsters come together in a story that is a little comedy, a little romance, and a lot of adventure.
