Inside the human mind, it builds. Inside the heart, it strengthens. The defense mechanisms that we hold on to so tightly are created for our protection, for our sanity. But what if they become so strong that they threaten the very existence they were meant to safeguard? Sam Bergman, a young kidnap victim, escapes his harsh reality hiding in his own mind. With each passing moment, he relives the life that may never exist again. His only hope of recovery lies in the hands of a man who has given up on life and himself. A desperate doctor fights to overcome the aching loneliness that permeates his soul. This is a beautiful story of the triumph of the human spirit, filled with compassion, kindness, and undying courage. It is a brief look into the heart, where each person comes to realize If One of us is Chained, none of us are free.
