

Onyx Dragon (The Dragon Chronicles Book 1)

After an unexpected visit from a young Northman, Queen Siobhan learns that an ancient, omnipotent darkness has reared its foul head in the kingdom of Eirenoch and has made its presence known in her lands to the north. The slaughter of Wrothgaars kin is just the beginning of the terrors that will come. Soulless things begin to walk the land, defiling the life force that has existed from the beginning of time. Eirenoch begins to wither, and the protectors of the realm sense that a strange, unearthly power has enslaved the Great Mother, and threatens to sap her of her strength. To save her lands, the queen must send her son, Prince Eamon, to the ruined temple of Dol Drakkar; a primordial shrine far to the north where the soul of the Dragon lies. There, Eamon will receive the blessing of the Firstborn and take on the mantle of all the kings before him. Only then can Eamon reawaken a long lost order of warriors known as the Knights of the Dragon, and lead them against the darkness that threatens to enslave and destroy the world.
