

Outriders

The start of a Military SF series from imprint best-seller and Tom Clancy game series writer Jay Posey. Captain Lincoln Suh died on a Wednesday. And things only got harder from there. Snatched out of special operations and thrown headfirst into a secretive new unit, Lincoln finds himself as the team leader for the 519th Applied Intelligence Group, better known as the Outriders. And his first day on the job brings a mission with the highest possible stakes. A dangerously cunning woman who most assuredly should be dead has seemingly returned. And her plans aren't just devastating, they might be unstoppable. How do you defeat a hidden enemy when you can't let them know they've been discovered? You send in the Outriders. File Under: Science Fiction From the Paperback edition.
