Past. Present. Future. Fate. They're all connected. Before Zac Ryger discovered TEMPUS, a secret project developed by his father, it never dawned on him that time travel could be a curse. After accidentally using it, he must face the fact that his actions might have caused small changes to the timeline, setting in motion a chain of events that affects everyone around him. His journey forces him to face the ultimate question: Is fate fixed, or can events in time be changed?
