

Planetfall: A Story of the Dark (Alexis Carew Book 101)

Denholm Carew enjoys a life most would envy. Scion of a wealthy family on New London, he can have almost anything he wants. But what he wants more than anything is the freedom to make his own way and build his own legacy to pass down to his children. Together with his wife, Lynelle, he sells everything to buy shares in colonial company and settle the newly discovered world of Dalthus IV. Planetfall is a prequel to the Alexis Carew series, which starts with Into the Dark. If you're new to the series, I suggest starting with Into the Dark, rather than Planetfall, as this story was written more for someone who's already a fan of the series and is interested in more background on some of the characters and customs. Also, Planetfall is available free to subscribers to my mailing list so there's that. J.A. Sutherland
