

## Indoor Salad Gardening: Create an Indoor Garden You can Eat!

You can grow an indoor salad garden any time of the year, with little space and always have fresh produce at hand for a tasty part of your meals. Temperature, pests and weather are easily controlled allowing you to easily custom tailor the environment for pesticide-free greens any time of the year, whether you live in a high-rise apartment or a rambling ranch. More than lettuce, you can grow just about anything indoors (people have even grown corn!). Find out how you can take more control of the food you eat using these simple methods.
