

Aesthetic Reconstruction of the Childs Nose

In the instant classic, *Aesthetic Reconstruction of the Childs Nose*, Dr. Burget provides an atlas which shows, in detail, how to make a nose. It is the first and only book to feature a large consecutive series of children as case examples. While reconstruction of a child's nose is similar to that of the adult, these patients require the highest possible aesthetic standard. A properly reconstructed nose in a child will grow in step with the patient and will achieve excellent aesthetic and functional results.

Nasal reconstruction with a forehead flap in children younger than He sets a new standard of excellence in nasal reconstruction.
