

## Red Lightning (Thunder and Lightning Series Book 2)

A cosmic coming-of-age novel enthralling everyman heroics. Paul Di Filippo, SciFi.com Mars sucks. And if anyone's allowed to say it, Ray Garcia-Strickland is, since his father was one of the first men to set foot there. Ray's father is now the manager of the Red Thunder, one of the swankiest hotels on overdeveloped Mars. And Ray has seen his share of gravity-dependent Earthies. Which doesn't stop him from fearing the worst when Earth is struck by an unknown object, causing a massive tsunami. Living high on his father's glory was okay, but now Ray must literally come down to Earth and help solve one of its greatest mysteries. From the Paperback edition.
