

Rescue Mode

Gritty and scientifically accurate sciencefiction adventure from New York Timesbest-selling authorBen Bova and NASA space scientist Les Johnson. If you likedThe Martian, experienceRescue Mode.The first human mission to Mars meets with near-disaster when a meteoroid strikes the spacecraft, almost destroying it. The ship is too far from Earth to simply turn around and return home. The eight-person crew must ride their crippled ship to Mars while they desperately struggle to survive. On Earth, powerful political forces that oppose human spaceflight try to use the accident as proof that sending humans into space is too dangerous to continue. The whole human space flight programhangs in the balance. And if the astronauts cant nurse their ship to Mars and back, the voyagers will become either the first Martian colonistor the first humans to perish on another planet.
