Lea Romero is dead. A week ago, she was murdered in a virtual recreation of 1950s Los Angeles, and now only her ghost remains. Lifeless, Lea drifts without purpose, but she constantly thinks about the advice people keep imploring she needs help. Lea knows the advice should be followed, but that requires facing her demons. Lea doesn't want to re-experience her homicide, and actively hides from anything that might trigger recollections. These efforts are futile. Surrounded by reminders, complete escape is impossible, and the unending stress is taking its toll. After deciding to take action, Lea bypasses professional help, and instead learns about her grisly fate. While doing so, she uncovers a sinister underworld. When Lea looks into her death, she discovers the true scope of virtual violence, and what's unearthed is discouraging. Lea's not a lone victim; hundreds have met the same fate. Worse, she finds out that the victims are like her—haunted ghosts pushed into hiding. Already dead, Lea decides to venture deeper into this dark world, but doing so sends her down a path that could change virtual reality forever, and destroy what's left of her in the process.
