

Return of the High Fae (Vegas Fae Story Book 1)

When ex-Cop turned Private Investigator Robert Hoskins saves the life of ex mobster and casino owner Eddy Milagre he figured that he might have stepped into something he shouldn't have. After taking down two of the would be kidnapers, Robert finds himself in Milagres office getting the third degree, but that's just the beginning. When Milagres people start asking him about wizards and magic all he wants to do is to get out of there in one piece. Mobsters or not these people are nuts! But when his dog starts talking to him and he gets a mystical visit from an Aunt and a Dwarf he knows his life has changed, and not necessarily for the better. What kind of world has Robert stepped into when he finds out he's descended from the Gods? From disbelief to acceptance, Robert encounters a variety of mythical beings. From Faeries and Norse legends to the Oracle at Delphi, from Mermaids to Werewolves to everything in between, Roberts world has definitely changed. While his path through that world appears chosen he soon learns that the beings that reside in the world of myths and fairy tales aren't that much different than those of the mortal world. Good and evil still battle one another and it's time to take sides. What should Robert do when the world around him stops making sense? When he finds out from a Dwarf that his dog is descended from Fae hunting dogs. When he knows that corporations and even the mob don't run Vegas, it's the Fae. When the prettiest girls he meets are over 3,000 years old and some of them drink blood. And that stripper, is she really a Faery? Lets not even go there. What should Robert do when he learns that strength in his new world is measured in magic and he barely has a clue how to wield it? Do Demons, Gods, Elves, and Faeries really exist? Are Vampires truly the children of Lilith? Robert didn't believe it at first either.
