

Establishing Precompetitive Collaborations to Stimulate Genomics-Driven Product Development: Workshop Summary

Despite the many basic research discoveries in genetics, relatively few gene-based treatments, drugs, or preventative measures have been developed. One way to bridge this gap may be for industry, academia, and government to develop partnerships that share resources while distributing risk. However, intellectual property protections and other barriers can inhibit collaborative efforts. The Institute of Medicine held a workshop on July 22, 2010, to explore these issues and develop solutions.

Reviewers - Establishing Precompetitive Collaborations to Stimulate Find great deals for Establishing Precompetitive Collaborations to Stimulate Genomics-Driven Product Development: Workshop Summary by Institute of **Establishing Precompetitive Collaborations to Stimulate Genomics** Workshop Summary Institute of Medicine, Board on Health Sciences Policy, research and development (R&D) among multiple parties in a precompetitive manner. **Establishing Precompetitive Collaborations to Stimulate Genomics-Driven 2 A Lesson About Precompetitive Collaboration** **Establishing** Institute of Medicine. 2011. Establishing Precompetitive Collaborations to Stimulate Genomics-Driven Product Development: Workshop Summary. Washington **Establishing Precompetitive Collaborations to Stimulate Genomics** Institute of Medicine. 2011. Establishing Precompetitive Collaborations to Stimulate Genomics-Driven Product Development: Workshop Summary. Washington **6 Ethical Challenges in the Use of Biospecimens** **Establishing** Establishing Precompetitive Collaborations to Stimulate Genomics . Buy Establishing Precompetitive Collaborations to. Stimulate Genomics-Driven Drug Development: Workshop Summary by Roundtable on Product Development. **Appendixes - Establishing Precompetitive Collaborations to** - NCBI Establishing Precompetitive Collaborations to Stimulate Genomics-Driven Product Development: Workshop Summary. Show details. Institute of Medicine (US) **4 Frameworks for Collaboration** **Establishing Precompetitive** Establishing Precompetitive Collaborations to Stimulate Genomics-Driven Product Development. Workshop Summary.
