

Sedimentary Cover, North American Craton: Us (Geology of North America)

Pp. x, 506; numerous black-and-white illustrations, some highlighted in red (geological maps, stratigraphic sections), 8 plates (very large folding color maps) in slipcase. Publishers original color pictorial laminated cloth and color pictorial laminated cloth slipcase, 4to. This volume is in the Decade of North American Geology Project series, it is Geology of North America volume D-2. Name stamp and signature of Rhodes dated October 1988 on the front endpaper. No signs of use.
