

## Aliens Occupy Earth

They started with plagues that killed ninety percent of humanity. The humans that survived hid in the forest. Civilization collapsed. The monsters felt there would not be any organized resistance. Many of the survivors were Boy Scout packs. The Boy was dropped to include all, and the packs, along with what was left of the army, took war to the aliens. It was ugly, brutal, and both sides knew it was a fight to the death. Authors note: Please download a sample of my work before buying it. If you like the sample, you might well enjoy the story.
