

Slow Food: Collected Thoughts on Taste, Tradition, and the Honest Pleasures of Food

Remember the days before the dot.com explosion, before Golden Arches rose from the Great Plains, before the Age of Information, when the only commodity that wasn't in short supply in America was time? Time to relax and reflect, time to cook well, eat well, and live the life of sustainable hedonism. Today we pound down our Big Mac and fries as we check our e-mail on our collective Palm Pilots, at the expense of true nourishment for our bodies and souls. Enough! says Carlo Petrini, the founder of Slow Food International, a movement that encourages us to turn down the volume, unplug the answering machine, and enjoy life to its fullest. Away with nutraceutical soft drinks and breakfast cereals made from refined sugar and shaped like clowns. Bring back the pleasure of the palate, and return the humanity to food. More than 60,000 members worldwide now belong to the Slow Food movement, which believes that the slow shall inherit the earth. *Slow Food: Collected Thoughts on Taste, Tradition, and the Honest Pleasures of Food* is an anthology for cooks, gourmets, and anyone who is passionate about food and its impact on our culture. Drawn from five years of the quarterly journal *Slow* (only recently available in America), this book includes more than 100 articles covering eclectic topics from Falafel to Fat City. From the market at Ulan Bator in Mongolia to *Slow Food Down Under*, this book offers an armchair tour of the exotic and bizarre. You'll pass through Vietnam's Snake Tavern, enjoy the Post-Industrial Pint of Beer, and learn why the lascivious villain in Indian cinema always eats Tandoori Chicken. The articles are contributed by some of the world's top food writers. *Slow Food* is moving fast in North America, with more than 5,000 members, loosely organized into 55 *Convivia*, from Montreal to San Francisco, benefiting from enormous free publicity. *Slow Food* offers

a clear alternative to the fast food nation (the title of Eric Schlossers great book on the horrors of the fast food biz). This is a perfect follow-up to Joan Dye Gussows This Organic Life, and is proof positive that he or she who lives slow, lives best.
