

Spots the Space Marine: Defense of the Fiddler

Pollyanna meets Starship Troopers in this fast, screenplay-like novel about a 30-something Marine private called out of retirement to join the war against the crabs. But shattered morale is the least of her companys problems, and their survival may hinge on an unlikely friendship forged between an alien weapons designer and a mother-turned-warrior. Told in a terse, script-like format, this is the first book in the series and is followed by the epilogue short Spots the Space Marine: Letters.
